

RESOLUTION ON VENEZUELA PRESENTED BY UPLA

IDU EXECUTIVE MEETING, 16 – 18 SEPTEMBER 2018. USA

The International Democrat Union IDU and the Union of Latin American Parties UPLA, in their permanent effort to monitor the serious political, social and economic crisis that exists in Venezuela and more recently the massive and uncontrolled migration to several countries in Latin America from Venezuelan citizens,

Strongly condemn the policies and the despotic socialist regime of Nicolás Maduro, which have brought the nation into a situation of chaos and deep misery, factors that generate the urgent need of Venezuelans to leave their country.

Make an urgent call to the solidarity of the international community with our Venezuelan brothers and especially in immigration matters, so that in the light of International Humanitarian Law and in full compliance with the norms of each State, they can access dignified living conditions during their stay in the host country.

Call attention to the international community on the serious effects that this Venezuelan migration is producing in Latin American countries, which do not have the economic resources and the necessary conditions to receive and attend such amount of migrants.
